UGITECH

Providing special steel solutions

”

A range of grades
specially designed for
the process industry

“

UGIPLEX

An excellent compromise between corrosion resistance and mechanical properties is offered by the austeno-ferritic grades (Duplex).

Examples: UGI 4362
UGIMA® 4460 UGIMA® 329
UGI 4462 UGI 45N
UGI 4507 UGI 52N+

UGICOR

High alloy grades for an outstanding corrosion resistance in highly corrosive or oxidizing media.

Examples: UGI 209 (XM19)
UGI 4539 UGI 904L
UGI 4529 UGI 926
UGI 4845 UGI 310S
UGI 4841 UGI 314

UGILEAN

Martensitic and ferritic grades characterized by their excellent levels of mechanical or magnetic properties.

Examples: UGI 4057 UGI 431
UGIMA® 4542 UGI 630
UGI 4418
UGI 4122
UGI 4114
UGI 4106 “430FR” (IMRE)

UGISTEAD

Low nickel austenitic grades used in the process industry for their anti-coking properties. In certain identified environments, they can replace 1.4301/1.4307 (304/304L).

Examples: UGI 204Cu
UGI 244

UGIMA®

The range of grades with improved machinability highly valued by users. This process offers incomparable cutting conditions and tool wear levels, without affecting the intrinsic properties of the grades.

26 of our grades also come in a Ugima version.

UGIPURE®

A wide range of grades with ultra cleanliness and improved structure for highly demanding applications (vacuum, high pressure, mirror surface condition, ...). These properties are obtained thanks to the latest ESR remelting technology.

Examples of available ESR grades :
UGI 4057
UGI 4542 (17-4PH)
UGI 4922
UGI 4122
UGI 4418

A high quality of service

An excellent level of organization and product quality, as attested by: ISO 9001, ISO 16949, ISO 14001, TÜV PED 97/23/CE and TÜV W0/TRD 100, Lloyds Register, COFRAC ISO/IEC 17025, EN 9100 and PR EN 9120 by AECMA-EASE Qualifas, Norsok MDS D47, R-CCM, Ü-Zeichen.

Supply chain solutions adapted to your needs

Ugitech has developed several supply routes, and today with our European central stock and 8 local depots in Europe and the US, we can offer you delivery times between 8 weeks (from the mill) and 24 hours for items held in stock. As for delivery, we meet over 90% of our promised delivery times from the mill, an unequalled performance highly appreciated by our customers.

A complete product range with a wide variety of shapes

Ugitech offers you:

- Profiles for filtration
- Nickel base and Stainless Steel welding Wire which permit to weld any Stainless
- Spring wire
- Wire lines
- Fibers
- Round, hexagonal or square bars
- Flat bars
- Pump shafts
- Billets for forging
- Other shapes: please contact us
